Seedstock producers, David and Dennis Johnston have built a solid reputation for supplying sound genetics. The Johnston family have been seed stock suppliers for over half a century. They are presently running over 500 cows and this great set of young bulls in this sale represent the top 30% of the 2008 bull calf crop.

David and Dennis use the top A.I. herd sires available and the important part is that one of those top A.I. sires they raised. King is doing a great job, this was very evident at the Schaff Angus Valley Sale where 98 sons averaged \$5204 selling for over half a million dollars.

Also featured this year is a great set of Net Worth sons as well as top sons of Mytty In Focus, these are two of the all time great sires.

You will find top sons of Sitz Alliance, HA Image Marker, Ironwood New Level, Johnston Bando 184K, Johnston Bandolier 174N, Johnston Density 9395 and Rafter S Ronan Tex 20K as well.

The bulls will be semen tested and ultra sounded by sale time and the information will be available.

The Sight Unseen Purchase Plan with Buyer Satisfaction Guaranteed will be available. Join the long list of satisfied customers and attend this sale of dependable sires backed by full time, lifetime stockmen.

If David, Dennis, Mike Fleury, Bob Blacklock, any of the sale staff or myself can be of assistance in anyway regarding this great group of bulls please give us a call.

Yours truly,
Doug Henderson

JOHNSTON/ FERTILE VALLEY

Deferred Payment Plan

- For Canadian buyers only •
- For bulls selling at \$2,000 and over •

Johnston/Fertile Valley offers a special financing plan for buyers at the spring 2009 sale. A down payment of 60 percent is necessary at the time of purchase, with balance due on November 30, of current year. This finance plan is only available on bulls selling at \$2,000 and over (Example: 60% of \$2,000 equals \$1,200 down payment with balance of \$800 due November 30, 2009). Interest is waived until November 30 of current year as well. For more detailed information please contact Johnston/Fertile Valley.

N. B. - A post-dated cheque is required on sale day for remaining balance.

THANK YOU - Honesty is very prominent in our industry. Where a man's word is still good. Since the implementation of our credit plan to help our customers, payment has been 100%. Hats off!

The H-1 designation means the bull can be used on almost any heifer.

The H-2 designation means the bull should be used on larger, more grown out heifers.

HERD HEALTH PROGRAM:
FERTILE VALLEY FARMS AND JOHNSTON ANGUS

David and Dennis have worked hard on the overall health of their herd.

This includes a rigorous vaccination schedule, careful attention to nutrition and acknowledgment of good animal handling and welfare practices.

All cows are vaccinated annually with a modified live IBR/PI3/BVD (type 1 and type2)/BRSV vaccine. They also receive an annual booster for E. coli and viral scours.

Calves are vaccinated for Hemophilus and Pasturella shortly after birth followed by a modified live viral vaccine at pasture turnout. All calves receive a comprehensive booster for bovine respiratory disease at weaning.

Nutrition is the basis of all good herd health programs and this operation pays particular attention to its importance. This past year, we randomly selected a number of animals to see where their mineral levels were at and adjusted their mineral intake accordingly.

All bulls will be semen-tested before the sale.

This health program has worked very well for David and Dennis. Treatment rates are low and the overall herd health is excellent.

Regards,
Dr J.E. de Moissac

QUEEN 362E - DAM OF F V 20K KING 308M

The FV 20K King 308M progeny have done very well for Fertile Valley, Stevenson Basin and Schaff Angus Valley. The first 109 sons at SAV earned an average 205 day weight of 864 lbs and included the first and third heaviest 205 day weight bulls of the entire 2008 calf crop in the record breaking Schaff Angus Valley February 14, 2009 Bull Sale. 98 King sons brought over half a million dollars to average \$5,204 U.S. per bull.

484U's dam is a very attractive Luke daughter. She originates from the "370" N Bar cow who is a daughter of Emulation 31. "370" is the dam of Bowerman's Nugget bull and is also the dam of Dennis "170" cow, still one of the best cows to ever graze our pastures. 484U brings a different pedigree with King, Luke, Triple Threat and 12U.

Something different for most herds. 813U has been a standout since birth. The Image Makers are popular in the US and we used him for embryo transplant. Dam is a full sister to the dam of 805U and both and paternal sisters to the great King bull. Will retain an interest in 813U. Terms will be announced sale day.
